

Hi Everyone

-Disaster Assistance CoC/Ukraine-Part 1 on what we will be doing. I have told lots of you that we would not be helping in the Ukraine because I did not have the connections there that would allow us to receive updates and photos of how our contributions were being used.

Today I have been talking with Revonda. I have known Revonda and her husband Bryan Kirby(Preacher at Zachary Church of Christ) for over 10 years and have worked with them at many different disasters. Revonda told me she was working with a team that has a person flying to Ukraine on Tuesday and taking medical supplies with him until they can get planes and shipping going.

Revonda asked me if the Disaster Assistance CoC Mission would be part of this team to help. After a little more discussion we agreed to work together. She is working on the list of other team members for me which I will share with you when it is complete.

Some of the initial items will be tourniquets, trauma kits, bandages, blood clotting medium. All things needed for traumatic injuries and wound care. These things are in desperate need. We are helping with the purchase of these items to start.

As I always say let us administer your donations for you. We know where the need is, we have volunteers or contacts there to help get the work done. We post updates with photos so you or your members can say look this is what our donations are doing.

You can donate to our work 2 ways. Online at **[www.disasterassistancecoc.com](http://www.disasterassistancecoc.com)** or make check payable to and mail to:

Disaster Assistance CoC, C/O Lake Jackson Church of Christ, 402 Center Way St, Lake Jackson, TX 77566. If you want this donation to go towards our work the above two options are the only choices. Making check payable to someone else or mailing to a different address will not go towards this effort.

Thank You
